Chest films, and the side with the foreign body will appear expanded on both views while the side with the foreign body will appear overexpanded. So this brings up the question, "Why were these people stopped, searched and arrested?" It is very unlikely that any of these arrestees were arrested solely for possessing marijuana. It should be considered part of the therapeutic armamentarium used in managing atopy in the dog. This article was originally published in "Recent Advances in Canine and Feline Nutrition, Vol.
